
Connecting a Windows or MS Surface device to C2k Wireless

Overview

This information sheet explains the steps required to connect a Windows or MS Surface device to C2k Wireless. This is a first-time only activity and would only need to be carried out again when the user account password has changed.

Prerequisites for connecting to C2k Wireless:

C2k User account must be a member of **Meru C2k Wireless** security group

Alternatively, for shared devices, you can use the **shared accounts** located at C2k Exchange | My School | School Documents | Guest Wireless Folder

Connecting the device

1. Power on device and navigate to **Desktop**.
2. Swipe right on screen and select Settings
3. Click the Network Icon
4. Select C2k Wireless from the network list
5. Ensure "Connect Automatically" is ticked click Connect
6. Enter your C2k Username and Password followed by OK
7. If you receive a "Continue Connecting" message click Connect
8. System will now connect to C2k Wireless
9. Internet Explorer, MS Store, Apps etc.... should now be accessible.
