

## Connecting a MacBook to C2k Wireless

This information sheet explains the steps required to connect a MacBook to C2k Wireless. This is a first-time only activity and would only need to be carried out again when the user account password has changed.

### Connecting the MacBook

1. Power on the MacBook, login to your MacBook account and click on the wireless icon located top right. A list of networks will appear. Click on C2kWireless

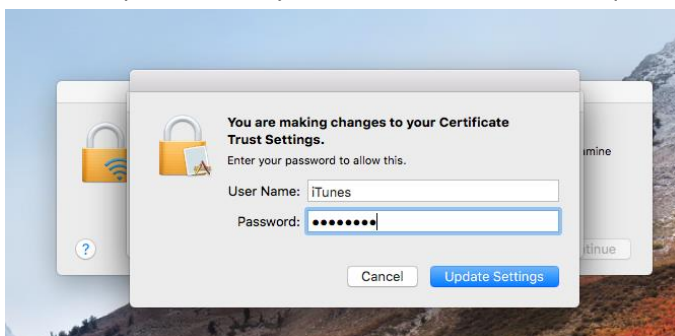

2. A new window will appear. Enter your C2K username and password. Once entered click on the **Join** button.

3. Afterwards a new window will appear. Click on **Continue**

4. Enter the password of your MacBook account if required and click **Update Settings**

5. System will then connect to C2k Wireless.
